

APRIL PROOFS RELEASE

Despite the change due to the rolling base, Jura-Bétail can proudly announce two N°1 and 3 bulls within the Top5.

A thrilling news for the users of our genetic!

✓ GENOMIC OFFER

HARPON JB keeps his leading position for the 4th proof release in a row. His strong dairy potential is confirmed (Milk +1028) and the richness of the milk is a strong marker of his assets (Prot +1.1; Fat +2.3).

Not far beyond, we now find **JUMPER JB** with 161 points of ISU, with a very well balanced profile as well as regarding the production (Milk +598; Protein +1.7; Fat +0.9), the type (TY 116; BO 106; FL 117; UD 117).

The functional proofs are also all positive. This bull is available in sexed semen.

Among our new bulls, let's focus on **JOSTIK JB** (Fablo x Ralban) with 144 points of ISU, very good in dairy production (Milk +1202) and also with high qualities of udder (119).

✓ PROGENY TESTED BULLS WITH **FLIPEX JB N°1** IN ISU AND THE FIRST DAUGHTERS OF **FRACAS JB, FABLIO JB, FUVEAU JB, GHANA JB...**

With now a total of 48 daughters and 161 points of ISU, **FLIPEX JB** becomes the N°1 montbéliard of progeny tested bulls. He is highly performing regarding production (Milk +889; Prot +1.0; Fat +0.6) but also in type

(TY 118; BO 106; FL 113; UD 122; MU 101) so as in functional (UDHEA +0.9; REPRO +0.3; LGV +0.6).

FRACAS JB with 141 points in ISU also presents strong assets. All qualities are found within this dairy sire: production (Milk +625; Prot. +0.0; Fat 1.0), in type (TY 111; BO 102; FL 113; UD 111) and also in functional

traits (UDHEA +0.2; REPRO +0.8; LGV +0.9).

FABLIO JB, with its 96 daughters, is very dairy and combines a great fat potential (Milk +683 ; Protein +0,0 ; Fat +3,4) but he also remains very good in type (TY 119 ; BO 116 ; RU 105 ; FL 106 ; UD 115) and also interesting regarding its muscularity.

Lastly, two sons of VALFIN JB, **FUVEAU JB** and **GHANA JB** respectively with 66 and 70 daughters each are now part of the game. The first one is the most performing sire regarding the udder health (+1.2); the second one is terrific regarding the udder itself (121) particularly in fore udder attachment (135) and development (120).

✓ SEXED SEMEN OFFER

9 bulls are available today in female sexed semen at 90%:

HEFFROI JB, HIKORIS JB, IATUS JB, IBREUIL JB, ILAY JB, IOSHI JB, IVIRIEU JB, JUMPER JB and JUNKY JB.

✓ THE CHANGE OF ROLLING BASE

As every year at the same period, the evolution of rolling base occurs. It reflects the genetic improvement of the Montbeliarde breed.

This year it is as follows:

ISU	INEL	MILK	TYPE	UDDER	BODY
-4 pts	-3 pts	-53 kg	-1 pt	-1 pt	0 pt
